

CURRICULUM VITAE

I. Generality

Name: Tatjana

Surname: Koka (Kokaj)

Email :

tatjanakokai@hotmail.com ; kokatatjana@yahoo.com

Mobile: 0695175491

Home phon +35542238067

Language: Anglisht,(document)

Italisht, Spanjisht

II. Education

1983 – Agriculture University of Tirana

Graduade:: Scientific Doctor, June1999

Profesor asocuar March 2012

III.Scientific experience 1985 follow as

1. Specialist 1985-1995 research Institute of fruit tree and vineyard in Tirana
2. Research scientific 1995 – 2005 Research Institute of fruit trees of Vlora
 - Chief of fruit tree section (1996-1997)
 - Director of project (1996-1999)
 - 1999-2005 researcher of Fruit tree stacion
3. Research scientific 2005-2008 Agriculture University of Tirana (Department of Horticulture)
4. Academic staff / Prof Ass Dr 2008- go on Agriculture University of Tirana Research Centre of Genetic resource)
5. Members of project, partner of project
6. Established of germplasm field National of subtropical tree 2005 e go on

Agriculture University of Tirana

IV –Scientific qualification

1. Ankara/ Turqi 1993 Agricultural Techniques in Arid Areas - TUBITAK

Leijpzig / Gjermani 1994 Conservation and Utilization of Plant Genetic Resources – DSE -

Izmir/ Turqi 1997 Fig production - CHIAM -

Gene Bank management- 23-25 february 2009 / The Nordic Resource Center (Nordgen)-

VI. Internationl Conference

- 1.T Koka, R Osmani ;Actual situation and future arboriculture November 1998 Lublin/Poloni.
2. T Koka; Studies on the local Fig { Ficus carica } - Cacereca / Spanje 2001
3. T Koka ; Fig Germplasm Conservation in Albania – 5 May 2005 Vilamor / Portugali
4. T Koka, Z Veshaj ; Enrichment, conservation and regeneration of fruit trees ex situ, August 2008 Dresden/ Gjermani
5. Racolta e caratterizzazione di ecotipi agrari di fico e mandorlo selvatico pugliesi ed Albanesi. Scientific paper 2008 Bari/Italy
6. Restap P, T ,Koka Characterization morphological and molecular traits of an Albanian fig collection – Presentation in Mekne/Marok
7. Clonal selection in Cipull cv, Kraps i zi cv, Melacak cv at Tirana region in Albania -2009 in Mekne/Marok – poster
8. T.Koka,I Kallari, A Bateni, Study morphological of Loquat (Eribotrya japonica) in Albania country,- Antakya/Turqi , May 2010 presentation
9. T Koka, Genetic diversity of minor fruit in environmental condition, ICE, Tirane,June 1-6, 2012
- 10.Genetic resources of pomegranate (Punica granatum) in Albania, Biodiversity, 21 November, 2012Tirana,
11. T Koka, Location and conservation of genetic resources fruit tree in Shkodra region, ICRAE, 24-25 May, 2013 Tirana
12. T Koka, Influence of climatic factors of fig tree is a very imported issue for the adaption of the varieties to different conditions. Agroecosystem, October 3,2013Jahorina
- 13.T Kokaj Investigation, evaluation, characterization of persimmon (Diospyrus kaki) in Tirana region. Biodiversity, Tirana 15.11.2013
14. T Kokaj, Collection and documentation of pomegranate germplasm in Albania country. September 2013, Taian/China.
- 15.T Kokaj, Establish, enrichment and documentation of some fruit tree species.Agroecosystem, 23 October, 2014 Jahorina.
- 16.T Koka ,Genotype identification of Roshnik Variety, Biotechnology, September 2014, Tirana
17. T Koka, Diversity genetic resources of jujube tree (Ziziphus vulgaris), November 2014, Tirana

National Conference

- Fruit tree region, Vlore 2006
- Genetic resources of fruit tree, Vlore 1998
- Fig germplasm in Albania 2004 Work Shop Word Bank
- Genetic resourse of fruit tree in Albania, workshop 2008
- Scientific activity of subtropical tree , workshop 2009

Work – shop – regional

Durres, Shkoder, Vlore, Korce, Sarande, Diber, Tirane, 2000 – 2001

International edit1.

Abstract : Studies on Local Fig (*Ficus carica* L) Spanj , 2001

2. Abstract: Fig Germplasm Conservation in Albania. Portugalia, 2005

3. Abstract : Enrichment, conservation and regeneration of fruit trees ex-situ. Germany 2008

4. Abstract – Characterization morphological and molecular traits of an Albanian fig collection. Maroc 2009

5. Abstract - Clonal selection in Cipill cv, Krops cv, Melacak cv at Tirana in Albania. Maroc 2009

6. Abstract -The study morphological of Loquat (*Eriobotrya japonica*) in Albania. Turkey 2010

7. Abstract - Genetic diversity of minor fruit in environmental condition. Tirana May 2012

8. Abstract - Genetic resources of pomegranate (*Punica granatum*) in Albania, November 2012

9. Abstract- Location and conservation of genetic resources fruit tree in Shkodra region, May 2013

10. Abstract - Influence of climatic factors of fig tree is a very imported issue for the adaption of the varieties to different conditions. October 2013 Jahorina

11. Abstract -Conservation and documentation of pomegranate in Albania, September 2013, China

12. Investigation, evaluation, characterization of persimmon (*Diospyrus kaki*) in Tirana region. Biodiversity, Tirana 15.11.2013

13. Establish, enrichment and documentation of some fruit tree species. 23 October, 2014 Jahorina.

14. Genotype identification of Roshnik variety, Roshnik, Biotechnology, September 2014, Tirana

15. T Koka, Diversity genetic resources of jujube tree (*Ziziphus vulgaris*), November 2014, Tirana
